MOLDED PLATES FOR ARCHITECTURAL FRAMES

Molded plates are 1/8" thick with a 1/16" reveal around the perimeter leaving a handsome border. Each plate is designed to snap in and out of respective frames for changeable signs, or can be permanently mounted with two sided tape. Plates are molded in the same six colors as the frames and then are stamped with a tough durable matte finish suitable for hot stamping, vinyl letters, or silk screening. For 2 ply engraving, 6 core colors and 13 surface colors can be combined for a quality contrasting engraved plate.
